

Edison published the *Weekly Herald* while working as a news-boy on the Grand Trunk Railroad during the winter and spring of 1862.¹ He later claimed 500 subscribers for the single sheet, which contained news and advertising from towns on the line. With some editorial assistance from train conductor Alexander Stevenson, Edison printed the newspaper in the baggage car on a galley proof press bought from J. A. Roys, a Detroit bookseller and stationer.² In his autobiographical reminiscences, Edison stated that he bought the type from a junkman, but he later recalled that he purchased “upper and lower case type from William F. Stor[e]y of the Detroit Free Press.”³ When Edison discontinued the paper, he and an apprentice at the *Port Huron Commercial* published an apparently scurrilous and short-lived gossip sheet called *Paul Pry*.⁴

1. Another issue, dated “June,” was photographically reproduced in “The Genesis of a Genius,” *Magazine of Michigan* 1 (Oct. 1929): 21. Close but not precise copies of that issue are at MiDbEI. Simonds 1940, 322.

3. App. 1.A6; TAE marginalia, R. H. Gore to TAE, 12 Oct. 1914, GF. Storey, owner and editor of the *Detroit Free Press*, had left Detroit for Chicago before Edison began his work on the railroad (Walsh 1968, 115). Edison’s official biography indicates that he continued printing the *Weekly Herald* at his home in Port Huron after being thrown off the baggage car following a fire caused by one of his chemical experiments. The discovery of 185 pieces of type during an archaeological excavation of the homesite lends credence to this story. Dyer and Martin 1910, 37–38; Stamps and Wright 1982, 35–39.

4. The apprentice, William Wright, later referred to this paper as the *Blowhard* and stated that they surreptitiously printed it on Saturday nights in the *Commercial* office. Wright referred to the paper as “peppery” and “hot stuff.” Wright to TAE, 10 Oct. 1878, DF (TAE 16:210); Wright to TAE, 29 June 1900, GF; App. 1.D52; Dyer and Martin 1910, 38–39.

HERALD

THE WEEKLY HERALD. PUBLISHED BY A. EDISON. TERMS.

THE WEEKLY Eight Cents Per Month. LOCAL INTELLIGENCE.

Premiums—We believe, that the Grand Trunk Railway, give premiums, every 6 months to their Engineers, who use the least Wood and Oil, running the usual journey. Now we have role with Mr. E. L. Northrop, one of their Engineers and we do not believe you could fall in with another Engineer, more careful, or attentive to his Engine, being the most steady driver that we have ever rode behind [and we consider ourselves some judges, having been Railway riding for over two years constantly.] always kind, and obliging, and ever at his post. His Engine we understand does not cost one-fourth for repairs what the other Engines do. We would respectfully recommend him to the kindest consideration of the G. T. R. Officers.

The more to do the more done—We have observed along the line of railway at the different stations where there is only one Porter, such as at Utica, where he is fully engaged, from morning until late at night, that he has everything clean, and in first class order, even the platforms the snow does not lie for a week after it has fallen, but is swept off before it is almost down, at other stations where there is two Porters things are visa a versa.

J. S. P. Hathaway runs a daily Stage from the station, to New Baltimore in connection with all Passenger Trains.

Professor Power has returned to Canada after entertaining delighted audiences at New Baltimore for the past two weeks listening to his comical lectures etc.

Didn't succeed—A gentleman by the name of Watkins agent for the Haytian government, recently tried to swindle the Grand Trunk Railway company out of sixty seven dollars the price of a valise he claimed to have lost at Sarnis, and he was well nigh successful in the undertaking. But by the indomitable perseverance and energy of Mr. W. Smith, detective of the company.

The case was cleared up in a very different style. It seems that the would be gentleman while crossing the river on the ferry boat, took the check off of his valise, and carried the valise in his hand, not forgetting to put the check in his pocket, the baggage man missed the baggage after leaving Port Huron, while looking over his book to see if he had every thing with him, but to his great surprise he had lost one piece, he telegraphed back stating so, but no baggage could be found. It was therefore given into the hands of Mr Smith, to look after, in the meantime Mr Watkins, wrote a letter to Mr Tulman, Agent at Detroit asking to be satisfied for the loss he had sustained in consequence, and referring Mr Tulman to Mr W. A. Howaad Esq. of Detroit, and the Hon. Messrs Brown & Wilson of Toronto, for reference. We hardly know how such men are taken in with such traveling villians, but such is the case, meantime Mr Smith, cleared up the whole mystery by finding the lost valise in his possession, and the Haytian Agent offered to pay ten dollars for the trouble he had put the company to, and have the matter hushed over.

Not so, we feel that the villian should have his name posted up in the verious R. R. in the

country, and then he will be able to travel in his true colors.

We have noticed of late, the large quantities of men, taken by Lieutenant Donahue, 14 regt. over the G. T. R. to their rendezvous at Ypsalanta, and on inquiring find that he has recruited more men than any other man in the regiment. If his energy and perseverance in the field when he meets the sevch, is as good as it was in his recruiting on the line of the Grand Trunk R. he will make a mark that the sevch wont soon forget.

Heavy Shipments at Baltimore—We were delayload the other day at New Baltimore Station, waiting for a friend, and while waiting, took upon ourselves to have a peep at things generally: we saw in the freight house of the GTR 400 bbis of flour and 150 hogs, waiting for shipment to Portland
